

99 Mods on the Wall Fabric

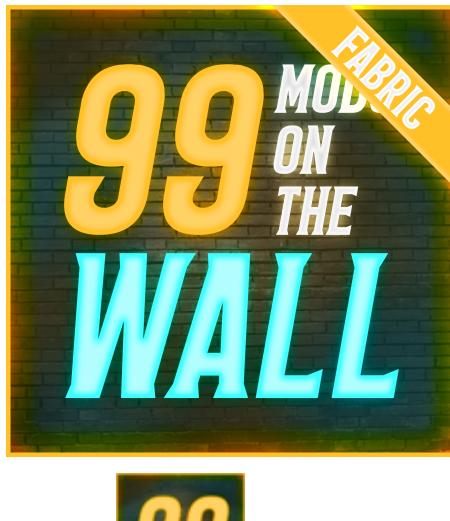

CurseForge Description DEMO

Illustrated and Created by BisectHosting

Modpack Logo:

Dimensions: 2000x2000px

DPI: 300

Original CF Panel: [\[click here\]](#)

NOTE:

When transferring the context of this document to the CurseForge text editor, SOME or ALL text formatting may be lost. Feel free to contact a BisectHosting staff member to properly transfer the document to CF.

TRANSFERRING IMAGES:

CurseForge does not support direct image uploads to the descriptions so you'll have to paste the images link instead. We have provided the image link at the end of this document in RED. If you have questions or concerns regarding transferring images, contact a BisectHosting staff member for assistance.

 **Need Help?** 

If you're having trouble transferring images to the CurseForge panel, let a BisectHosting staff member know and we'd be happy to assist. Images should already be the correct dimensions therefore resizing will not be necessary after import.
